David J. Hille, well known to all our old subscribers, is the proprietor of a drug store at Castle Rock, Wash., and has a branch store at Kalama, same state, writes: As I am an old subscriber to the support of the WORLD, I enclose you draft for \$2.00 to help keep the WORLD alive, for if the WORLD should die I would have no use for the \$2.00. Thanks Dave.

The Farm Journal is 22 years old, prints 40 tons of paper a month, and is out of debt; it is cut to fit every progressive farmer and villager. Don't you want this fine little paper? Very well, pay all arrears and a year ahead for The WORLD and we will have the Farm Journal sent to your address for five years—and it will get to you if alive and anywhere on this planet.

At Caldwell, the other day, a man chastised his neighbor for referring to his child as a "kid." When the case was brought before a justice of the peace, Webster's dictionary was consulted, and it was found that "kid" was there defined as "a young child or infant." The indignant parent was thereupon adjudged to have been in the wrong and was fined \$6 and costs.—Osborne Farmer.

The Republic City News says a girl in that burg recently sent ten cents to an eastern paper for a recipe for softening and whitening the hands and received as answer the following advice: "Soak them in dishwater three times a day while your mother needs." If that girl as many others will heed the advice given she will live longer and happier than she otherwise will.—Colby Tribune.

The Kansas City Star says Gomer Davis of the Concordia Kansas is believed to be to blame for this: "I've licked a dozen stamps to-day, for telegrams I've sent. I licked and stuck one on a bill with which I paid my rent. I licked a stamp to paste upon a note which I renewed, and then I licked another one to make the mortgage good. I licked these stamps to show that I respect my country's will, and now I'd like to lick the man that introduced the bill."

THE WORLD learns from the Secretary that the State Board of Agriculture can still supply a limited number of applicants with copies of the quarterly reports devoted to "The Helpful Hen," "Alfalfa, Irrigation and Subsoiling," "The Plow, Cow and Steer," "Pork Production and Feeding Wheat to Farm Animals." Each of these practically exhausts the subject of which it treats, and every one of them is of great value to those interested in Kansas live-stock and agriculture. THE WORLD recommends its readers to send the postage, which is about six cents for each report, to the State Board of Agriculture, Topeka, and secure this valuable literature.

Congressman W. A. Reeder was over last Saturday attending to some legal business. Mr. Reeder has just returned from a three weeks' visit to the National Capitol. He informs us that while in Washington he employed at his own expense, an expert to look after his pension business before the pension department while he is absent from Washington. Any person who has any business before the pension department is invited to correspond with Mr. Reeder at his home—Logan, and that he will have the matter carefully looked after in Washington by his man there. This arrangement will be continued during Mr. Reeder's absence from Washington.—Phillipsburg Dispatch.

Editor WORLD: We desire through your columns to correct a report that is being circulated concerning the W. C. T. U. putting a ticket in the field at the coming city election. We are not making any arrangements to that effect, but hope for the best possible results. Yours for temperance. W. C. T. U.

A new law was passed by the last legislature that is of great importance to the western half of the state, where it has been the custom to ship in cattle after March 1 and evade taxation. It provides that personal property brought into a county after March 1 and before September 1 shall be assessed for taxation unless it has been taxed for that year elsewhere. The tax is made a lien on the property so that the cattle cannot be sold prior to December 20, and thus escape taxation on that end. The law was the work of George Wiley, representative of Mead and Seward counties, who pushed the bill to a successful issue in spite of opposition. It means thousands of dollars to the counties of western Kansas.—Osborne Farmer.

OUR MARKET REPORT.

[The Chicago Live Stock Commission Co. of Kansas City, furnish the following report of the condition of the market at the Kansas City Stock Yards:]

KANSAS CITY STOCK YARDS, }
March 22, 1899. }

The general cattle market has shown some improvement over last week's trade. While there were liberal receipts in both Kansas City and Chicago the first days of this week, the market has had a strong undertone with a good corps of buyers in the field.

Top steers are selling at \$5.25 to 40; well bred, dehorned Westerns and plain bred Natives weighing 1200 to 1250 pounds are selling at \$4.65 to 80, and 1000 to 1100 pound cattle of the same quality at \$4.30 to 45.

Stockers and feeders are still selling at dangerously high prices and promise to sell high all spring.

The outlook for advancing hog markets is not at all encouraging. Light hogs are selling at from \$3.10 for 119 pound pigs to \$3.55 for good 200 pound hogs; heavy hogs at about \$3.60 to 70. Packers seem rather indifferent about obtaining supplies and it now looks as if these conditions would prevail throughout the month.

\$32.50. \$32.50.

THE ABOVE GREATLY REDUCED RATE has been made by the UNION PACIFIC to CALIFORNIA POINTS. Through Tourist Sleepers, quicker time than any other line.
